

Load Indicator for Cranes

Large Numeric Display

With a numeric display of 315 x 150 mm with adjustable brightness, the PAT-Krüger large number display is ideal for readings at a distance, even beyond 50 meters. The display has 2 analogue inputs 0-10/15V 0/4.20mA and also 2 digital inputs (optional more inputs).

Advantages

- Brightness correction
- Reading distance > 50m
- Colour switch possible via digital input or set point
- Symbols possible

HEAVY INDUSTRY | RAIL | MOBILE CRANES | CONSTRUCTION AND INFRA | PORTS AND SHIPYARDS | LEGACY SYSTEMS | OFFSHORE AND DREDGING | SHIPPING AND FISHERY

Technical specifications

Power supply	10-30VDC
Power consumption	Max. 30 Watt
Input	2 analogue 0-15V or 4-20mA 2 digital
Dimension LED panel	315 x 150 mm
Pixel rate	21 x 10 for each colour
Colour	Red / Amber
Protection	IP 65
Temperature	-20° to +50° C (option: +70° C)
Visor	Stainless steel
Dimensions	450 x 210 x 250/140 mm
Connections	RS 485 (DS 120/PSV) RS 232 CAN (via converter) Ethernet (DS130)

Optional

- Master / Slave max. 8 displays
- Data logger output
- LED tiles extendable
