

Railmachine

PAT-Krüger Safe Load
Limiter Railmachine
SLL R1

Connection box

Angle transducer WGX

Angle transducer WGX

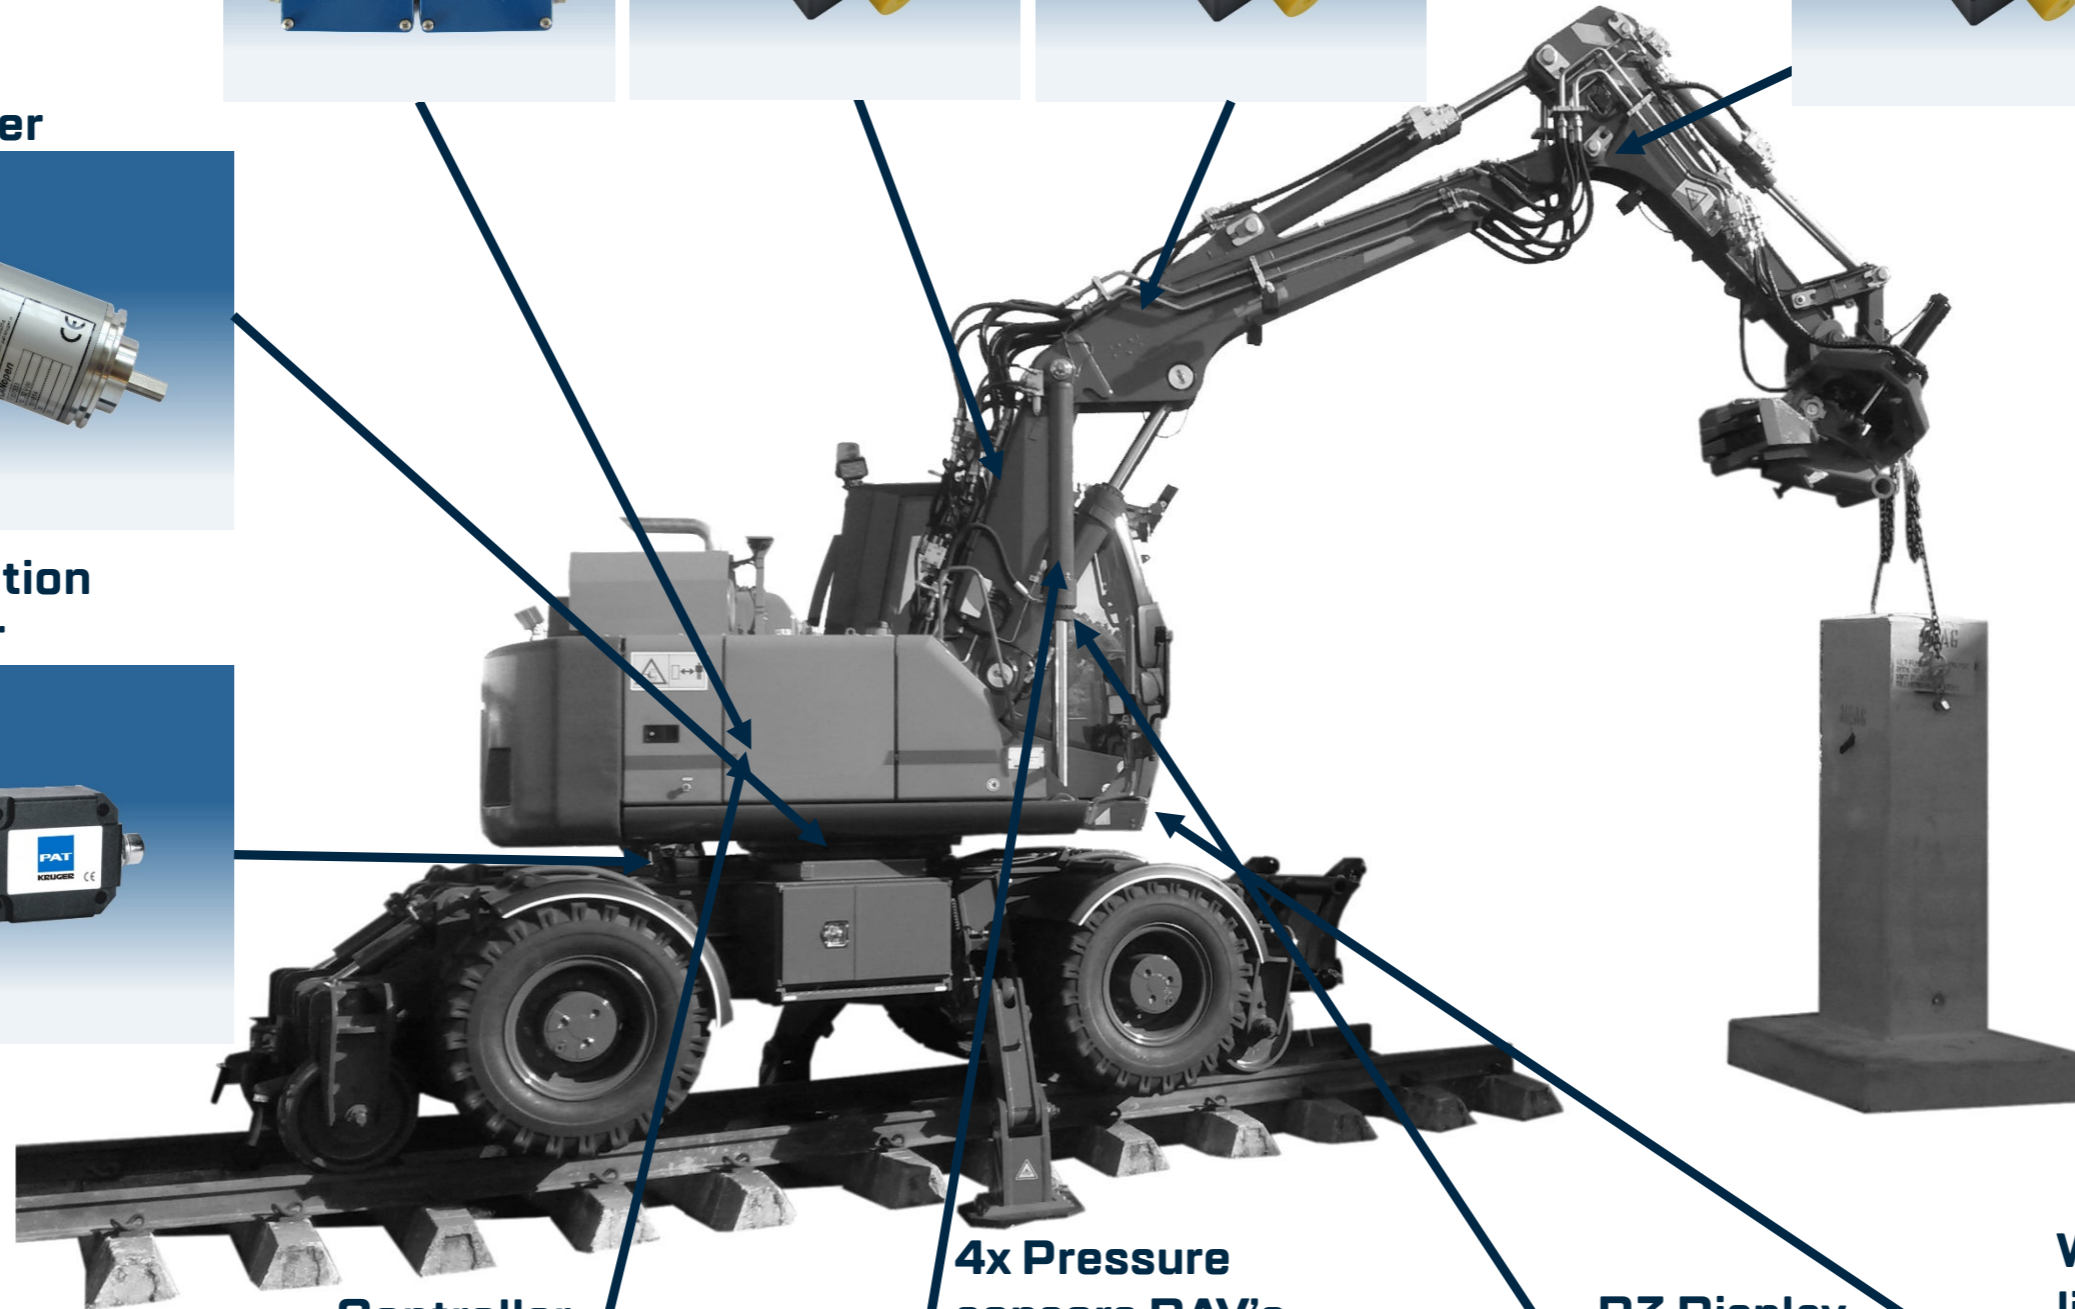

Angle transducer WGX

Encoder

Inclination sensor

System components:

- 1x Display D3
- 1x Controller IP66/67
- 4x Pressure transducer
- 3x Angle transducers
- 1x Encoder
- 1x Inclination sensor
- 1x Connection box
- 1x Warning lights

Options: Camera systems, remote data access, Windspeed measurement etc.

Controller

4x Pressure sensors DAV's

D3 Display

Warning lights

Scope of delivery

1x Display D3

1x Controller IP66/67

4x Pressure transducer

3x Angle transducers

1x Encoder

1x Inclination sensor

1x Connection box

1x Warning lights

1x Software (max. 40 load charts)

1x Documentation

Remarks:

- We assume that a cut-off relay is available on the crane, we supply the signal.
- Welding is not included and should be arranged by you.
- All further options on requests
- Test weight will be arranged by you
- Cabling is not included
